                       2. **Everything else**   Options ▾

                       Reset Priority Inbox to default configuration

Reading pane: ☐ **Enable reading pane** - provides a way to read mail right next to your list of conversations, making mail read
                       adding more context.

                       Reading pane position
                       ○ No split
                       ○ Right of inbox
                       ○ Below inbox

Importance markers: ◉ **Show markers** - Show a marker (🔸) by messages marked as important.
                       ○ **No markers**

                       Stellar Development Foundation Mail analyzes your new incoming messages to predict what's important,
                       considering things like how you've treated similar messages in the past, how directly the message is
                       addressed to you, and many other factors. Learn more
